Scout Notes

A Scout's Honor is to be trusted. This is very aptly paraphrased. "When a Scout says it is so, it is so." His word may be taken with confidence, if he's clear himself—he's right. If he's wrong—he was up. Maintaining his honor means more than evading punishment. He will keep a promise. His bargains are square. He is a good sport. He can keep a confidence. People say of him: "Oh! he's pretty trusty!"

Due to poor roads Commissioner Bees Hugg was unable to get here last night to invest 7 Tenderfoot. It was therefore postponed till the next future.

FIRE PREVENTION WEEK

In Canada last week the United States the week of October 9th to 15th is being observed as Fire Prevention week. This is one week of the year concentrated against fire damage and injury.

At the present rate about one life and 375,000 is lost through fire, every day. The loss in the list of causes are careless smokers and following this are firetraps, matches, gasoline, and chimney fires and defective fixtures.

We must start educating our children—yes, and our grown-ups too, to guard against this tremendous loss.

The A. Y. P. A.

Though apparently unable to define it, the executive made Tuesday "edification" night. They were successful in obtaining Mr. S. H. Crowther as guest speaker. It was considered him to have him shot.

Mr. Crowther chose to discuss "Sincerity, 'Know thyself'." Elucidating this, he stated the first step was to analyze your mind, motives and psychological reactions.

Following this, he said, tolerance comes from understanding. In opposition, we are prone to "making mountains out of molehills" and to "wield thinking."

A lively discussion among a small group followed his address, and this carried on long after the close of the meeting.

Next week is Social Night.

A FARMER'S MUSINGS

(By Tim Longbottom)

ALL SORTS

A young fellow of our acquaintance recently presented us with a puzzle, and not being able to untangle it, we are passing it along to our readers.

His father is of German-French parentage, while his mother claims Irish, Scandinavian and Scottish descent.

This lad of many racial strains wants to know if he should be classed as Aryan, Celtic or Nordic.

To complicate the situation still further, his father was born in the state of New York, his mother on an ocean going liner flying the Union Jack, and the boy, himself, in Sunny Alberta.

Western bachelors who avoid double harness because of the initial expense might consider Jugoslavia as a fine place to get wed. According to a native of that country, the girls have to either furnish the home or keep on working after the marriage. They also pay the cost of the ceremony and provide suitable gifts for the groom's relatives.

By way of comment on this situation, one Canadian lady said that if the maids of Jugoslavia aren't any better prizes than some of the boys of other lands the girls over there don't get very much for all their bother and expenditure.

Pretty cute, eh?

BUSINESS AS USUAL

One of the few good features of the European crisis is the complacent manner in which the people of Britain are facing the issue.

"Business as usual" is still the national motto, and the numerous sporting events are being attended as though the grim spectre of war had been banished from the face of the earth.

As befitting the democratic institutions of the country, the newspapers are expressing themselves along different lines but it must be said that the vain glories of London, now so fashionable in nearby Idaho, is wholly absent from the editorial columns.

Similar conditions in the past caused distinguished visitors to misunderstand the true nature of the people, but the late Rudyard Kipling, who knew the race above all others, summed up the situation in the following words:

"Oh, my country, bless the training That from rot to castle runs—
The pitfall of the stranger—
But the bulwark of thy sons—
Measured speech and ordered action
Sluggish soul and unperturbed.
Till we see our island devil,
Nowise cool for being curbed."

TOO OPTIMISTIC

Although a number of western citizens are quite convinced of the conquering nature of Hitler's army, these gentlemen had better restrain their enthusiasm until the Swastika flag is waving over more European capitals than Berlin on the Spree.

Even if Hitler fulfills his promise of leading them to battle, the German soldiers aren't likely to goosestep their way to success within a few days. They are going to be opposed by men as resourceful as themselves, and the long lines of fortifications may lead to an indecisive struggle lasting a number of years.

In this event, the war will be conducted from the air, solely for the purpose of destroying historic cities which have witnessed the passing of many centuries.

A great host of innocent women and children will perish from the effects of poison gas, while the fierce conflagrations started by incendiary bombs may well startle men into the belief that the hell envisioned by ancient prophets has come to earth.

Plague and famine will follow, as they ever do after prolonged conflict, and when the treaty of peace is signed on the devil will be able to claim the victory.

It was the realization of all these things that inspired the American President to urge European statesmen to continue negotiations for a peaceful settlement of the issue involved.

Whether Mr Roosevelt's plea is successful or not will be known to all long before this comment appears in print.

Ardenode
Mr and Mrs Gadsby and son Billy of Calgary were guests of Mr and Mrs George Dawson Sunday.

Mr George Skene and Mrs J. Seelye spent Friday last in Calgary.

Mr Harry Lawson had the misfortune to break a bone in his hand, one day last week while working with his truck. Dr Giffes set the bone, and we hope it will soon mend.

We are glad to hear Mr Bill Seelye

is making very satisfactory progress and hopes to be able to return home in a very few days. Mr Jim Seelye is also making a good recovery and was able to sit up last Sunday for a short time.

Mr J. H. Mitchell of Edgerton, who has been staying in the district for the last month has left for his home.

Hain put a stop to all threatening operations Monday. A few days more good weather will clean it all up for this season.

Mr and Mrs A. M. Watson also Mrs Saunders spent the week end in Calgary.

Rockyford

The Rockyford Bridge Club met at the home of Mrs Muehlheiser on Wednesday last with two tables in play. Mrs L. L. Stone won the honors for the evening. At the conclusion of the play the hostess served a delightful Millionaire Pie Lunch.

Mrs Anna Roberts has been spending her summer holidays with her parents at Rockyford. She returned to her duties in Calgary the last week of September. Mrs Roberts went to Calgary on Friday of this week, to spend the week end with Miss Anna and their son and his wife, who have just returned from their honeymoon trip to the mountains.

Mr Eric Chapman has returned home from his station in one of north Alberta towns where he has been preaching in the mission circuit for the summer.

It was indeed a shock to all of the community when they learned of the tragedy which happened at Redlands on Saturday when the young three year old son of Mr and Mrs Owen Kenney was run over by a truck which was being backed out of the Garage. The parents rushed for help immediately but the boy passed away before they could reach a doctor. Funeral services will be held in Calgary on Tuesday, Oct. 4th. Rev. Archibald will conduct the service.

Owing to ill health of himself and that of his young son, he made it necessary for Mr Joe MacBeth of Balintire to give up farming operations, and he is handling a sale of all his equipment on Tuesday, Oct. 11th. Later he and his wife and family will leave for Scotland where they will in future make their home. The whole family will be greatly missed by a large circle of friends and neighbors.

Mr George McQuaid, brother-in-law of Mr R. L. Stone, arrived in Rockyford on Monday, October 3rd with a couple of friends from Vancouver to enjoy a couple of weeks of the shooting season in Alberta. This is Mr McDonald's 5th season of fall hunting in this district.

YOUR COUNTRY NEEDS YOU

Perhaps you shrink from these words, and who can blame you? They recall all too vividly the patriotic fervor of a nation in arms and the epilogue of horror and heart-break. But, although the call is more urgent for your help in a crisis, your country needs you just as surely in the cause of peace and progress. If you and your neighbors are prosperous, your country prospers. If you and your neighbors are well informed and progressive, the whole country reaps the benefit.

Greater progress, higher standards of living, better ways of life are possible to an informed people. It is your privilege to be informed fully on all matters of importance through a free press. THOUGHT FOR TODAY

THE blessed work of helping the world forward, happily does not wait to be done by perfect men.

—George Eliot—

THANKSGIVING DAY 1938

THE WORLD GIVES THANKS

It was said the Armistice in 1918 was the greatest world event since the Crucifixion of Christ.

We hope that future developments will warrant our naming the agreement signed at Munich last week, by the five Great Powers, Great Britain, France, Italy and Germany, and strongly influenced by President Roosevelt of the U. S., as the third in that category of world influencing events.

In this statement, we do not overlook the disappointment and crushed hopes of the Czechoslovakian people. They had hoped with an intensity of feeling deeper to them than life itself, to save their country entire. For us who live in Canada it is quite impossible, to comprehend the state of feverish tension with which they regard their nationalism and their country's boundaries.

But they have accepted the conditions with a stolid dignity that is their credit.

To Prime Minister Chamberlain, undoubtedly the sincere, active, courageous mediator, determined if possible to save the world from the unspeakable horrors of another world war, is due the genuine gratitude of the peoples of civilization.

The millions of lives thus saved from death or a life of incredible suffering, does compensate for the tragedy and curtailed territory of the Czechs, and in time when conditions become settled and life becomes more normal we feel they too will be grateful they played their part in the world-moulding solution.

The world gives thanks for the prevention of war. To those who held the view, and there are many that it is just a deferred evil, we submit the view was never nearer the brink of the precipice than during the past few weeks. Pressure through arbitration was successful in this case, why may it not be as effective, in any future crisis?

Public opinion opposed to war strengthened the course of those to whom the momentous task fell. The youth of today are developing an ever stronger anti-war stand.

The nations have passed through crucial, soul-stirring days. We believe they will be equally strong in the future and "The sword shall be turned into ploughshares."

THANKSGIVING DAY 1938

For a better harvest than the Province has reaped for years, and for a long period of most glorious weather in which to harvest the crop Alberta people are grateful.

The wonderful sunshine that has prevailed day after day has thrilled the soul of our people, and to strange within our gates, who have come this fall to reside here, they have marvelled, and found no words to express. The sun pouring forth its rays on our multi-colored flowers, foliage, and trees, with the blue of the sky and the white fleecy cloud overhead spreading all, has created a picture that words are futile to describe. Cold and callous would be he, whose soul has not been stirred to a feeling of ecstasy by the beauty.

ROCKYFORD

(Continued from Page Two)

All threshing has been definitely stopped by the heavy rain of Monday, and at time of going to press it looks as though we might have a few more days of the same type of weather. A few farmers are finished with the threshing and on the whole many are pleased with the yield of all crops. Garden produce is the best for many years and in many gardens large quantities of ripe tomatoes, Pumpkin Squash and Citrons are being gathered continuously.

A party of young people motored with Miss Freda Allcock to her home at Langdon on Sunday, Oct. 2nd for the day.

Langdon

The community extends sympathy to Mrs. Glibb and her mother, Mrs. M. Porgie. Mr. J. E. Glibb died in Vancouver September 23. Mrs. Glibb will be better remembered as Dulcie Porgie.

"Grandpa" Miller is home again after several days in the hospital.

Mrs. C. Jesse and Leon spent the week end with D. Jesse and family at Seabe.

Mrs. G. Whitney and Stewart visited with Mr. and Mrs. W. Catlin from Friday to Sunday.

Langdon is to be a travelling library centre. Readers of good books will appreciate this. Mr. J. L. Colwell will be the librarian.

Mary Bishop and Norman Whitney were the Scholarship winners in the very successful School Fair held on September 16th.

ELECTRICITY

BENEFITS EVERYONE!

WHETHER you live in town or in the country you benefit through today's wide use of electricity.

The new processes and manufacturing methods which electricity has made possible are responsible for most of the articles used in your home, your business, and on your farm.

Your radio, whether battery or batteryless, is of use only because electricity makes broadcasting possible. Your weekly movie is a child of electricity too.

You can phone for a doctor, or a pound of tea, only because of electricity. That same electricity has made it possible for your local merchants to keep their merchandising methods up to the standard of city stores.

These are only a few of the many ways in which electricity benefits you, whether you live in an ALL-ELECTRIC HOME, or one that is still to be equipped with these time-saving and labor-saving devices.

THE GREATER THE USE OF ELECTRICITY, THE GREATER THE JOY OF LIVING.

THE SPORTS LEDGER

JUNIOR HOCKEY

For some time the Intermediate Hockey picture has been bright, due to a formidable and highly respected sextet. However, the machine, though noted for team spirit and high class hockey, has remained virtually the same. More young talent must be added in if the Bulldogs can survive. True, some juniors were unhired in last season, and the stand they made should be noted.

Last year the Bear Cats made a dandy showing, but received little support. When they reach the standing they should have the opportunity to enter the intermediate ranks.

Why not greater cooperation between them by putting both teams under one management?

NO HOCKEY EXHIBITION
Due to changes in schedule, the Americans and Rangers will not play in Calgary.

WORLD SERIES STARTS
On the upper end of a 2-1 score in the first game of the series yesterday, the Yanks show every indication of winning. With odds at 2-1, most writers give them 5 games. Those favoring the Cubs seem to be playing hunches.
